## STEWARDS' DECISION

**From:** The Stewards

**To:** Eastalent Racing

The Stewards, having received a report from the Series Technical Delegate, summoned and heard from the competitor's representative, have considered the following matter and determine the following:

**No. / Driver:** 84 -

**Competitor:** Eastalent Racing

**Time:** 23:00

**Session:** Qualifying 4

**Fact:** Following post-qualifying technical checks, it was established that the data logger of Car 84 had been disconnected before the Qualifying Sessions, with the result that no qualifying data was recorded.

**Offence:** Breach of Article 504.7 of the GT World Challenge Europe 2026 Sporting Regulations.

**Decision:** Deletion of all laptimes set during the Qualifying Sessions (= Qualifying 1, 2, 3 and 4). The Competitor is allowed to start the race from the back of the grid.

**Reason:** The Competitor was summoned and heard before the decision was taken. Article 504.7 of the Sporting Regulations requires the data logger to operate throughout the Competition, including during every practice and qualifying session. The report of the Series Technical Delegate states that, according to the Official Data Technician, the data logger of Car 84 was disconnected before the Qualifying Sessions and that no qualifying data was recorded. During the hearing, the Team Representative stated that the mechanics believed the data logger had been connected correctly but that it may not have been fully engaged, allowing it to become disconnected due to vibration. Regardless of the cause, the data logger did not operate throughout the Qualifying Sessions as required.

Competitors are reminded that they have the right to appeal certain decisions of the Stewards, in accordance with Article 15 of the FIA International Sporting Code, within the applicable time limits.
