STEWARDS' DECISION

From: The Stewards

To: af corse

The Stewards, having received a report from the Series Technical Delegate, summoned and heard from the competitor's representative, have considered the following matter and determine the following:

No. / Driver: 50 -

Competitor: af corse

Time: 19:05

Session: Superpole

Fact: Following technical checks after Superpole 4, it was established that the data logger of Car 50 was not connected, with the result that no Pboost information was recorded.

Offence: Breach of Articles 502.1 and 504 of the GT World Challenge Europe 2026 - Sporting Regulations.

Decision: Deletion of all laptimes set during the Superpole sessions (= Superpole 1, 2, 3 and 4).

Reason: The Competitor was summoned and heard before the decision was taken. Article 502.1 of the Sporting Regulations requires the mandatory Data Acquisition System (data logger) to operate correctly at all times during the Competition, with all required data fully recorded and retrievable. The report of the Series Technical Delegate states that no Pboost information was available for Car 50 because the pressure sensors were not connected. During the hearing, the Team Representative stated that it was possible the mechanics had inadvertently disconnected the data logger while carrying out work on the car. Regardless of the cause, the required data was not recorded.

Competitors are reminded that they have the right to appeal certain decisions of the Stewards, in accordance with Article 15 of the FIA International Sporting Code, within the applicable time limits.
