

FANATEC GT WORLD CHALLENGE EUROPE POWERED BY AWS

TD 05 8/11/2024

JEDDAH

NOTE FROM THE SRO SPORTING BOARD

Article 30.6 of the 2024 Sporting Regulations states that *“Exceptionally, drivers categorised as Silver and who are racing in the Gold Cup, Silver Cup or Bronze Cup, may take part in these Bronze sessions if they have never driven on the track in question, in any car whatsoever, either in race conditions or in a private or official test session, in a track configuration including the majority of the corners used for the Competition. Permission will be given on a case-by-case basis by the SRO Sporting Board. Note that in the context of this article, ‘private or official test sessions’ does not include any paid test sessions held immediately before the Event for which permission is being requested.”*

Teams are advised that, considering the specific context of the Jeddah round of the Fanatec GT World Challenge Europe powered by AWS Endurance Cup, where the majority of drivers are not familiar with the circuit, **permission for Silver drivers to take part in the Bronze Test will only be given if the driver in question is unable to take part in the Official Test Session held before the Event, due to reasons of force majeure accepted as such by the Sporting Board.**

Signed by the Sporting Board.
